Thank you for taking the time to complete this form and please feel free to ask our skin care consultants any questions or express any concerns you may have to assure the best RESULTS for your skin type.

I understand that I am responsible for all jewelry, clothing, and accessories I wear before & after my sunless tanning application or airbrush tan. I understand I do not hold anyone but myself responsible for any of these items. I assume responsibility for any kind of allergic reaction I might have to this formula. I understand that I am doing this sunless tanning treatment at my own risk. I have read all of the instructions about my Airbrush Tanning Treatment and understand completely. All information is accurate as far as I know.

Signature _____ Date _____

BEFORE TANNING

- Wax 2 days before the tanning or shave the night before; Wax residue will block tanner absorption.
- Take a shower and exfoliate properly using a body brush or quality scrub. Removing any dead cells and body oils will help the sunless tanner penetrate your skin and give you the best results.
- Do not use deodorant (it will turn green!!!!), makeup, perfume or moisturizers prior to the tanning. Lotions can act as a barrier & prevent the solution from contacting your skin.
- You may tan in the garment of your choice or ladies may be sprayed nude. Bathing suits and underwear work well and Men are required to wear underwear, boxer shorts or a bathing suit. The Spray tanning solution will not stain what you wear, it washes off in the laundry.
- Do Not wear Tight fitting clothing after your Spray Tan.
- Bring a dark loose fitting long sleeved shirt, and loose comfortable (Pajama) Pants and flip-flops to wear after the Spray. If you don't wear this attire after the spray tan application, it could get ruined.
- To avoid age spots, freckles, moles, etc. from getting darker, apply a cosmetic concealer over the spots or areas to block the solution and give an even appearance of color.

IMMEDIATELY AFTER TANNING

- Do not wash your hands for least 4 hours.
- Do not put on tight clothing for least 4 hours.
- Do not exercise (first day). Perspiring immediately after tanning alters the chemical reaction of the solution changing its color.
- Do not swim or immerse in water.
- Do not apply moisturizer.

MAINTAIN & PROLONG YOUR TAN

- Wait at least 8 hours before showering. Recommend next day. You may see color washing off the first time you shower; this is normal.
- Apply moisturizer after the shower and every day after your tanning session. This will help prolong your tan. Do not take long hot baths or showers.
- Chlorine from a pool or Jacuzzi can cause your tan to fade faster.

CANCELLATION POLICY

We ask that you please give us 24 hours if you need to cancel or reschedule an appointment. Clients that do not notify us within 24 hours will be charged half the price of the treatment.
